

# Sleepybumpo Magic Tray

## Product Overview – Key Components

### 1. Interchangeable Activity Sheets

- A set of interactive sheets designed to enhance sensory and motor skills, easily inserted into the primary tray for versatile play experiences.

### 2. Adjustable Carry & Car Seat Strap

- A comfortable, detachable strap that allows the tray to be carried as a shoulder bag and also serves as a secure attachment for car seat use, ensuring stability and convenience while traveling.

### 3. Stroller Attachment System

- A secure mounting system featuring a plastic plate and silicone wrap band, providing a strong, non-slip connection to a stroller handrail for hands-free use.

### 4. silicone secure bands

- Silicone secure bands for bottle, pacifier and etc.

### 5. Primary Tray

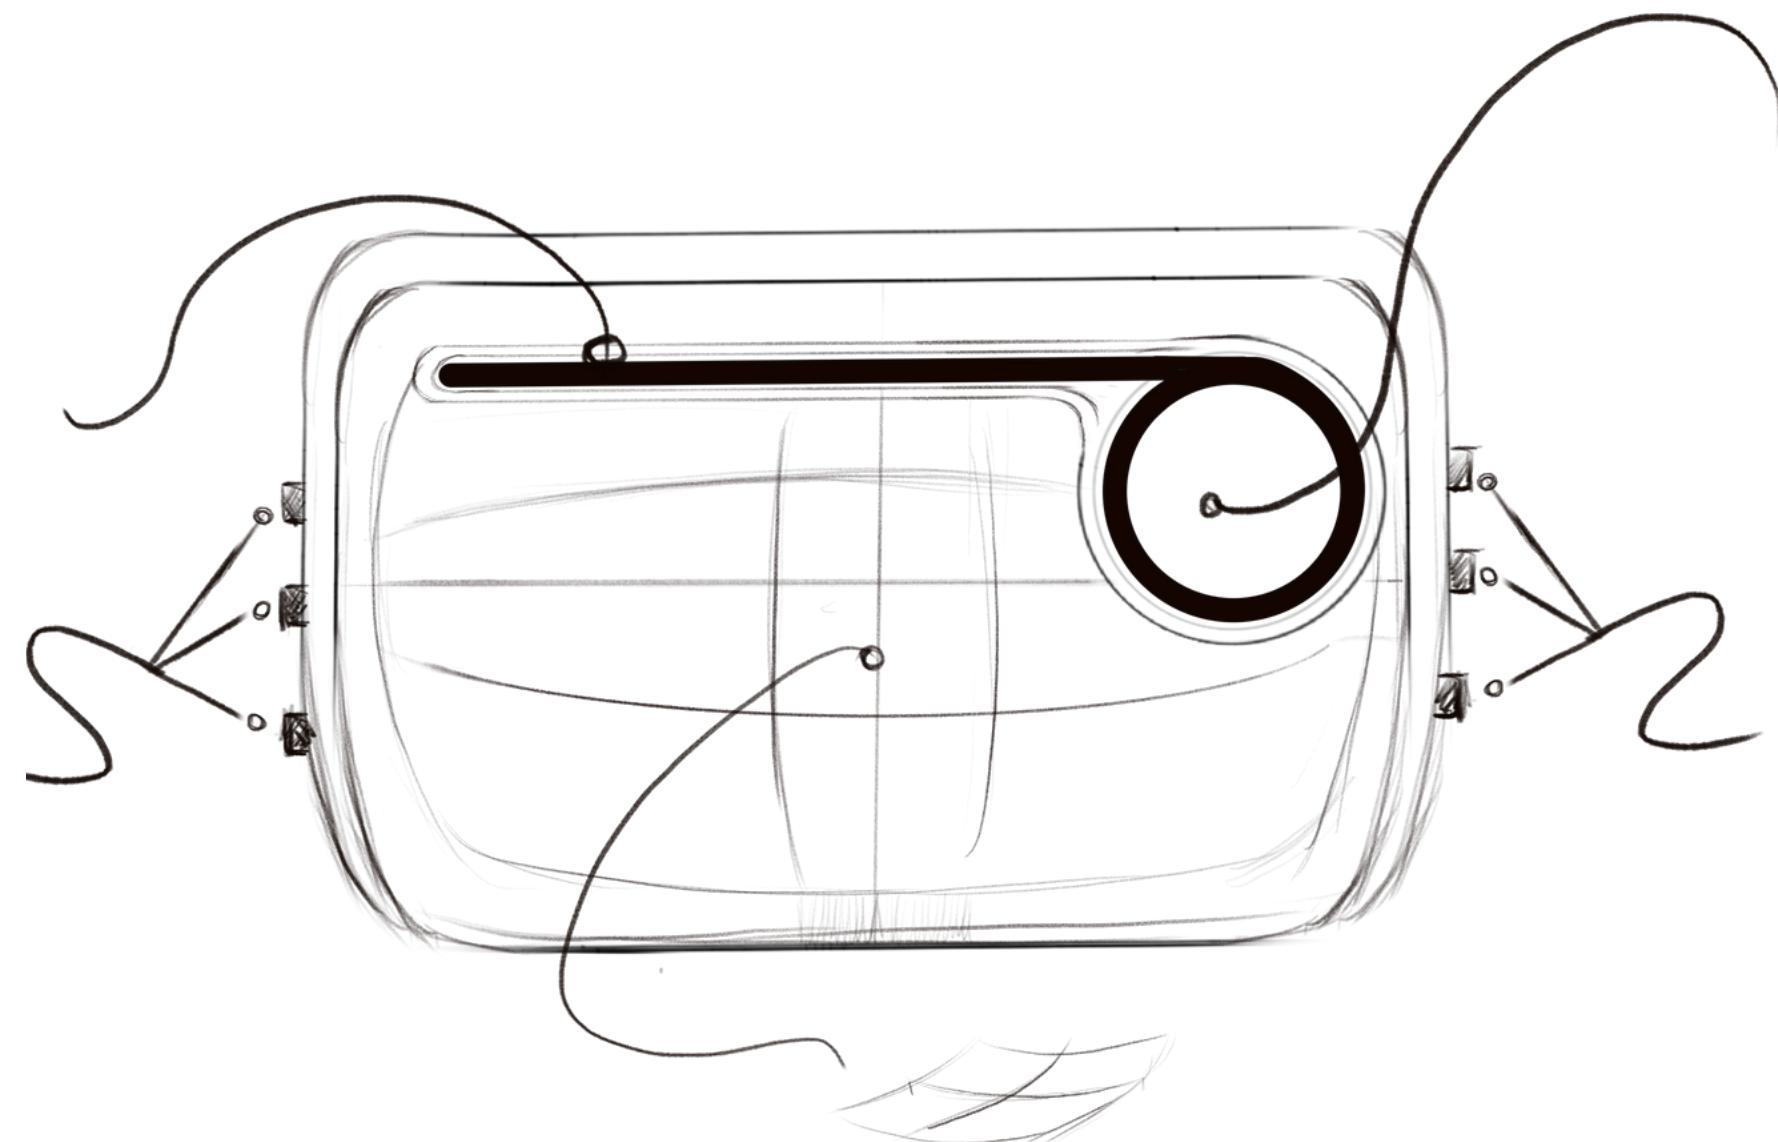

- A compact, multi-functional play tray with built-in storage for activity sheets. Made from plastic coated with soft-touch material, it offers a comfortable, easy-to-clean surface, perfect for use at home, in the car, or on the go.

## 1.Primary Tray

Phone or book holder notch

Hooks to connect toys,  
pacifier, bottle  
and the secure band to  
enable transportation and  
car tray connection

A tangent smooth notch - a place for Snacks etc.

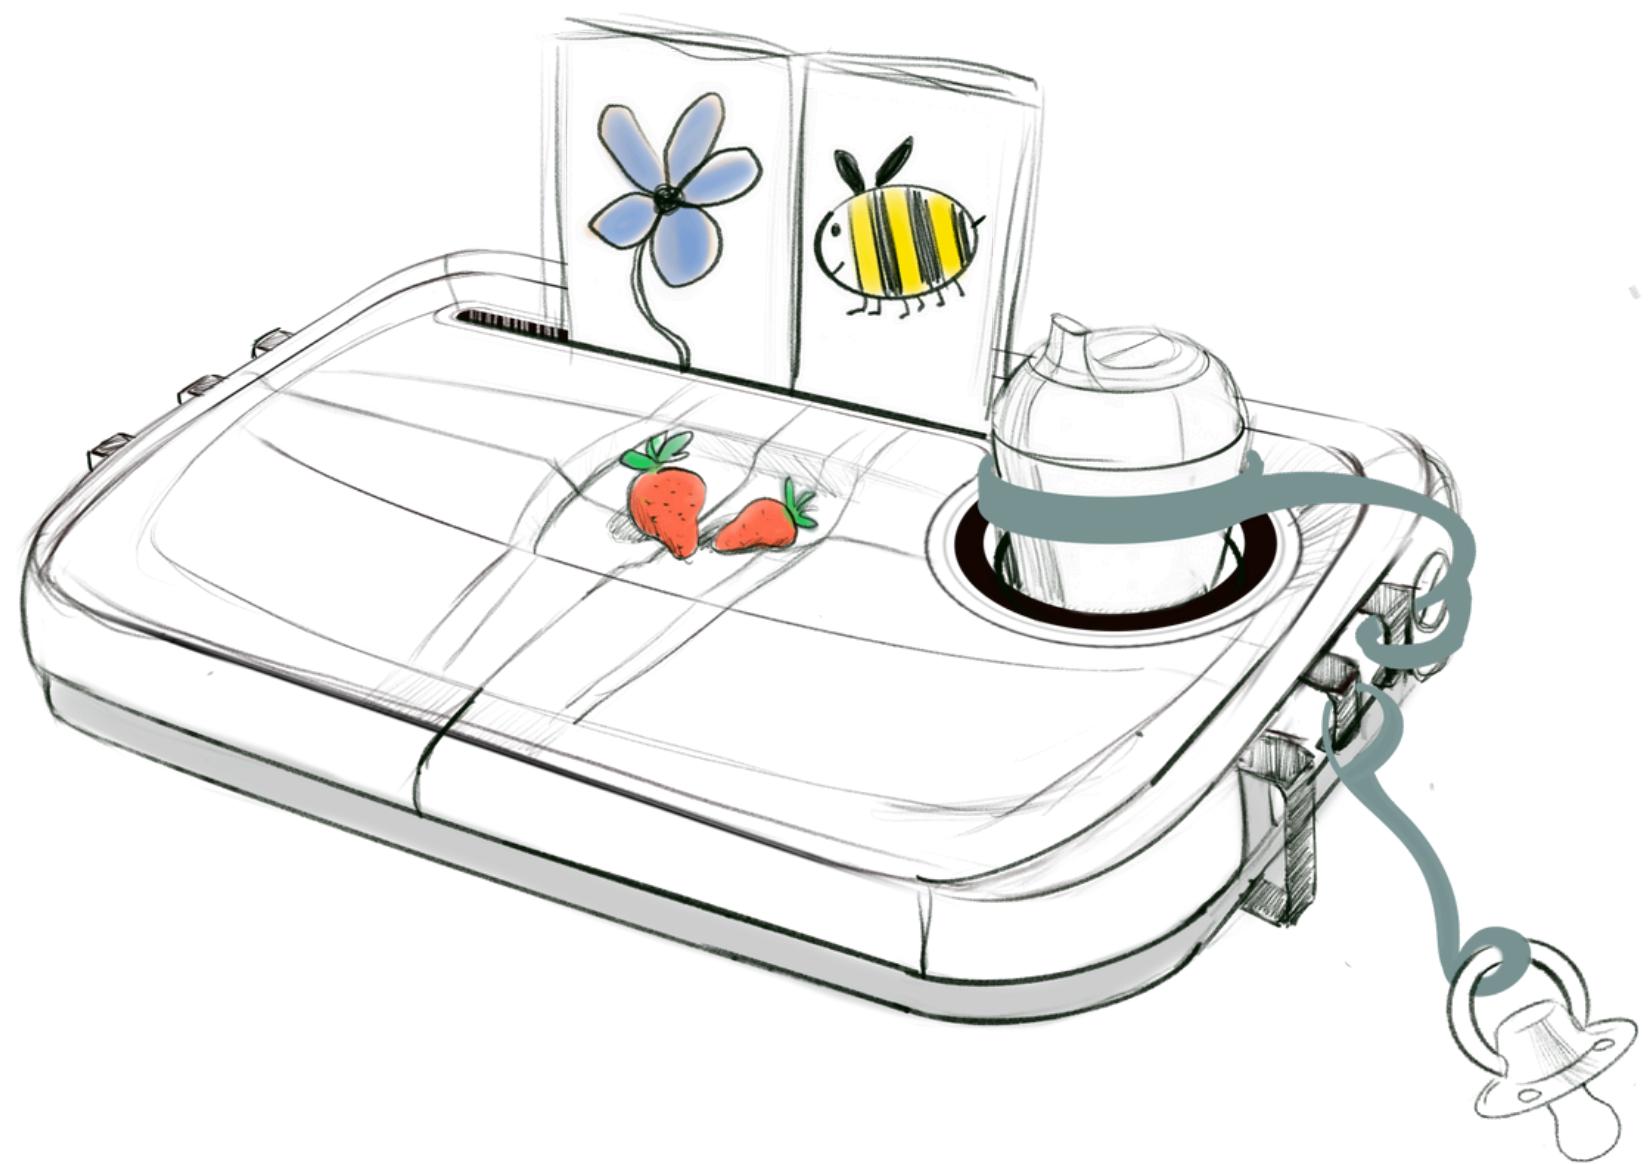

## Primary Tray – Smart Design & Premium Materials

The Primary Tray combines functionality and aesthetics, featuring dedicated slots and hooks for bottles, toys, and pacifiers, along with a snack-friendly smooth notch and a phone/book holder for convenience.

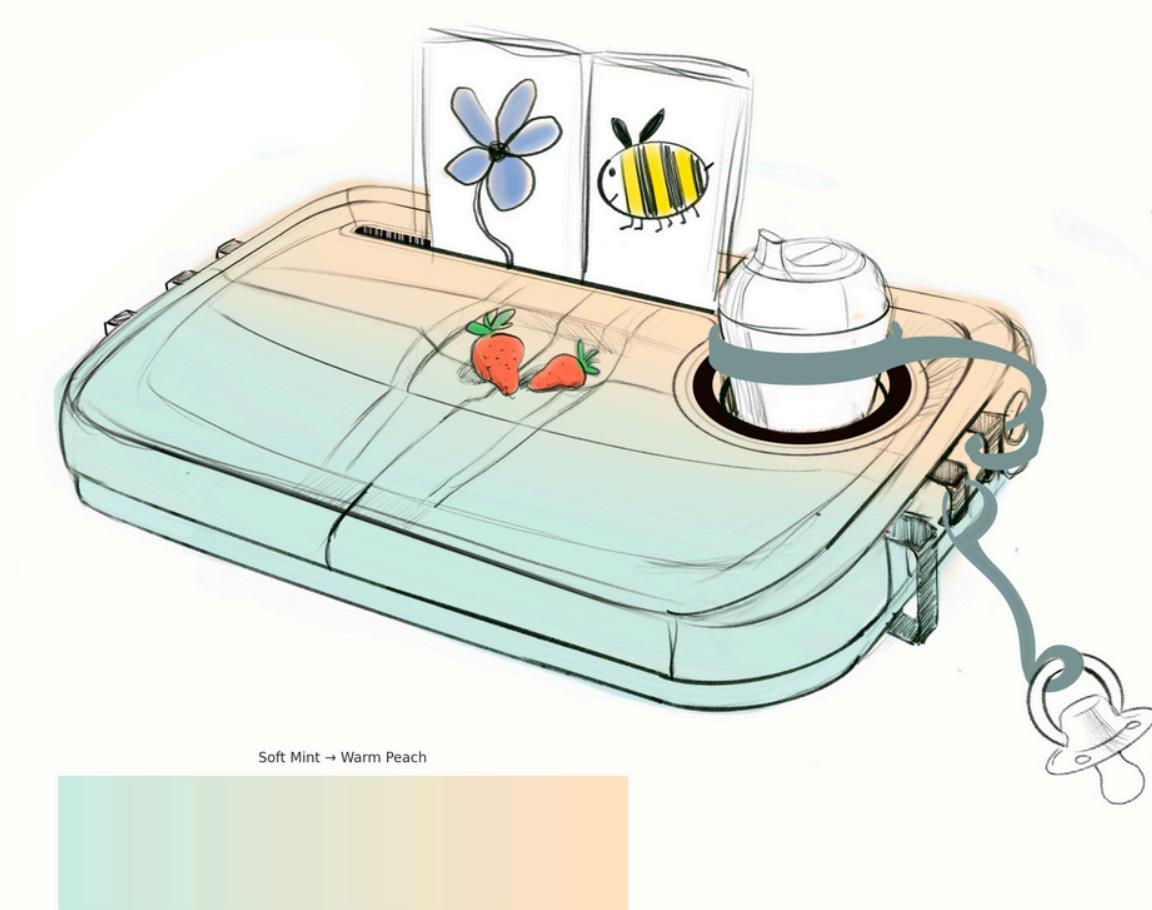

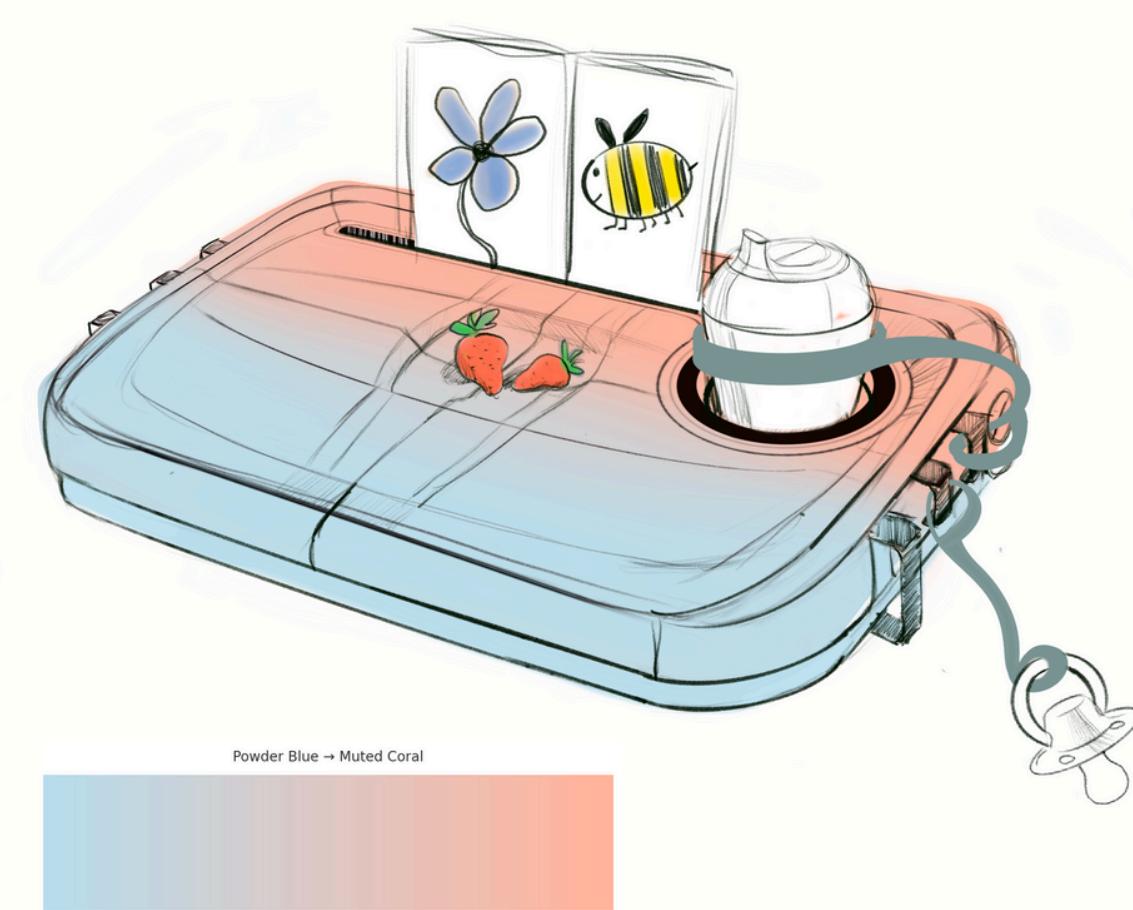

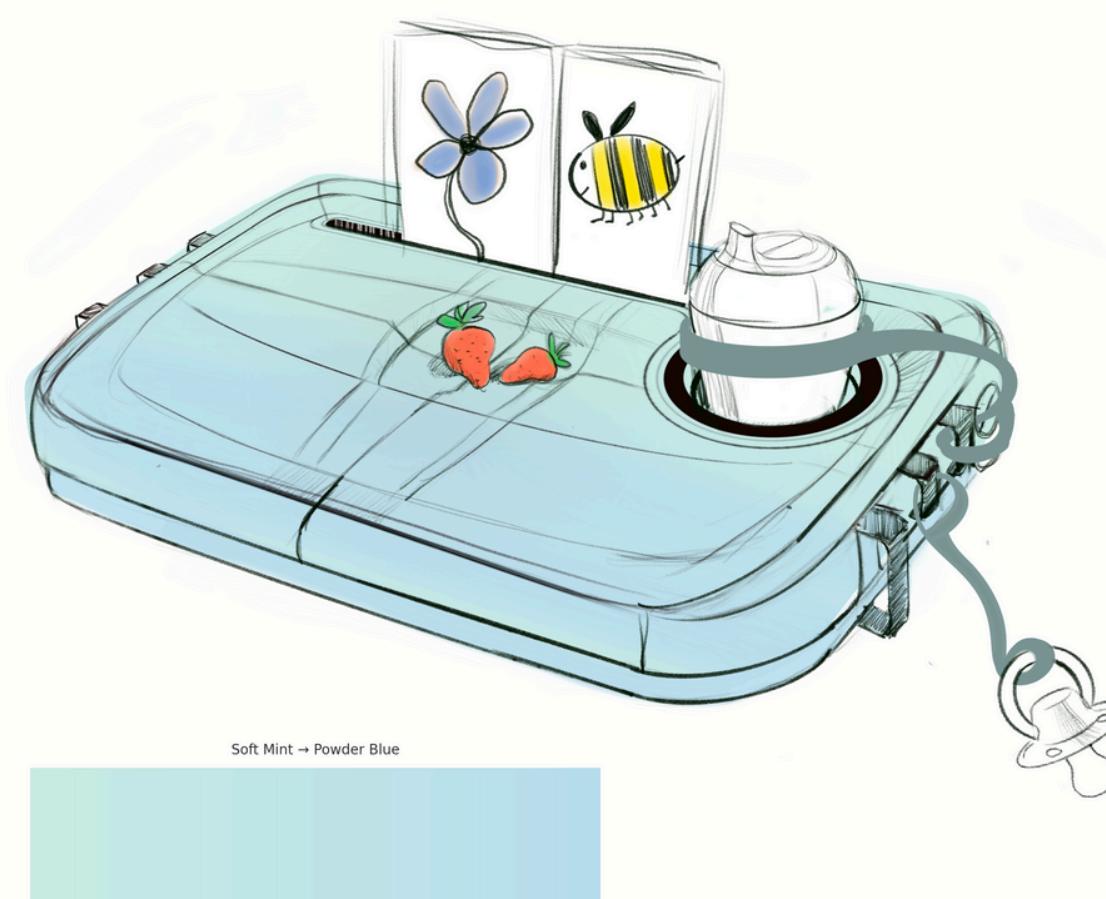

- Material: Made from lightweight, impact-resistant ABS plastic.
- Soft-Touch Coating: Select areas feature a TPE or silicone-like coating (similar to Elfbar vaporizer material) for a velvety, anti-slip grip with a sleek, modern matte finish.
  - Benefits: Stable & secure for travel.
  - Comfortable, soft-touch feel.
  - Elegant matte texture for a premium look.
  - Easy to clean, stain & scratch-resistant.

A versatile, stylish, and child-friendly tray, perfect for home, car, or on-the-go use.

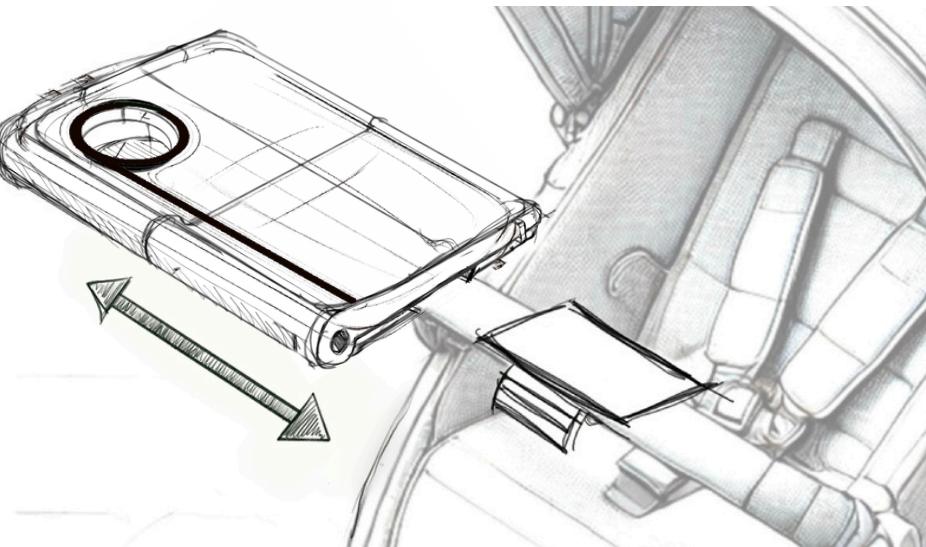

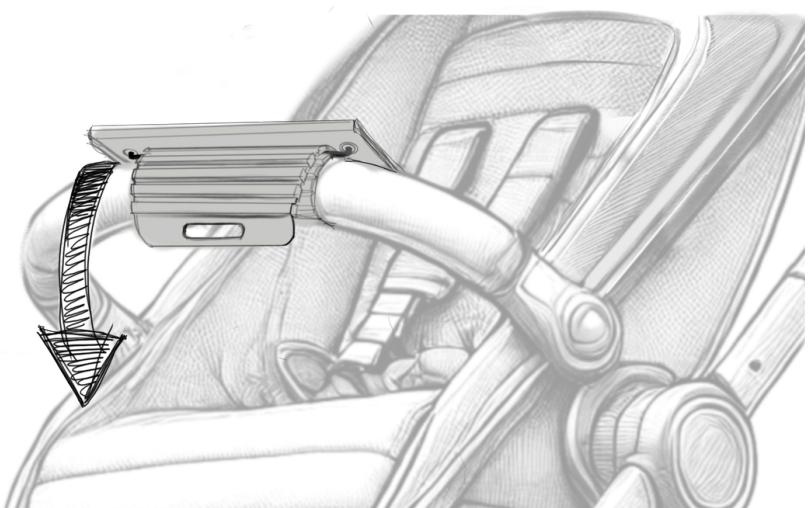

DifGender-neutral gradient combinations that blend soft, playful tones for a modern and calming aesthetic.

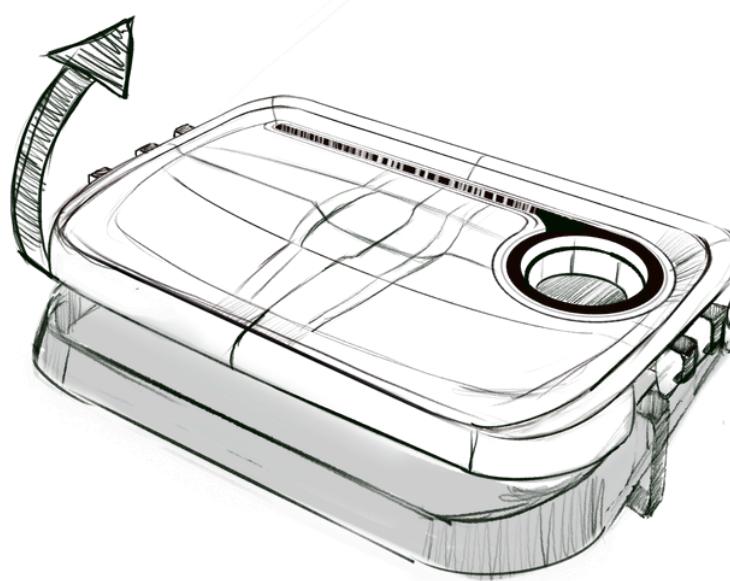

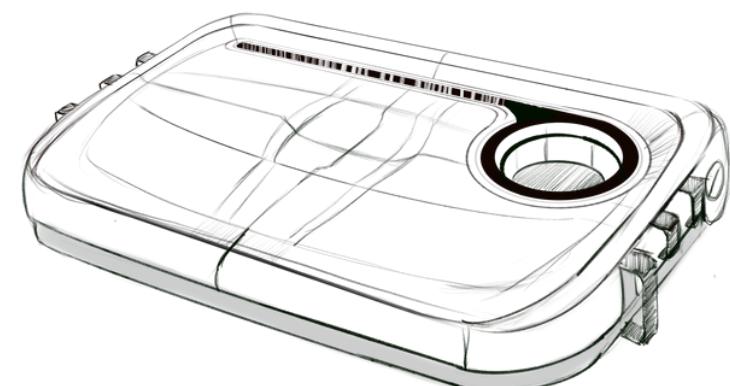

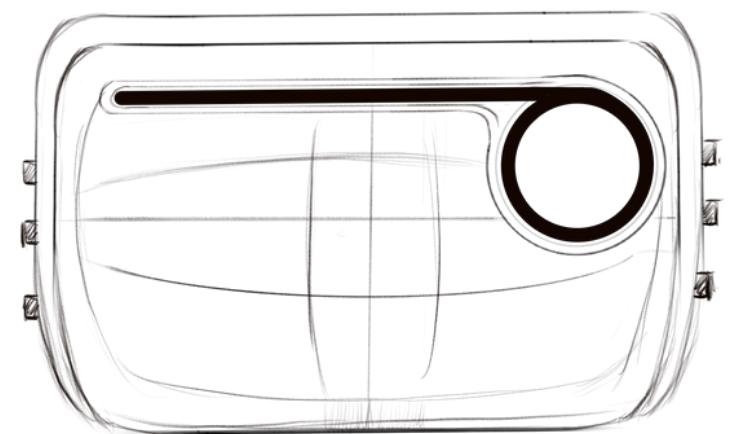

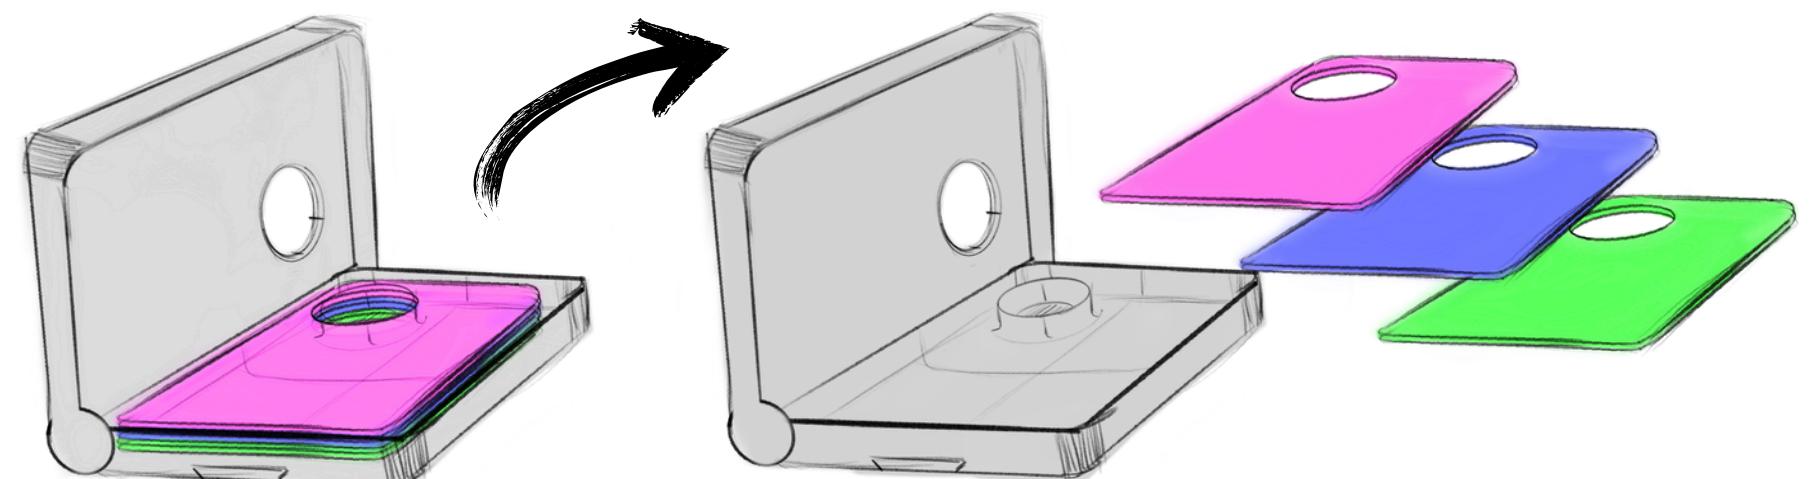

## 1.1 Primary Tray – Adjustable Stroller Connection connection to stroller handrail

The tray securely attaches to the stroller handrail using a separate fixed connection part, allowing easy detachment when needed. A plastic mounting plate slides into the tray, ensuring a stable and secure hold while enabling quick removal. The silicone wrap band with bumps (similar to diving goggles' closure) firmly grips the handrail for a strong, non-slip fit. This design allows for effortless attachment and detachment, making it convenient to remove the tray without disconnecting the mounting part from the handrail, ensuring continuous ease of use.

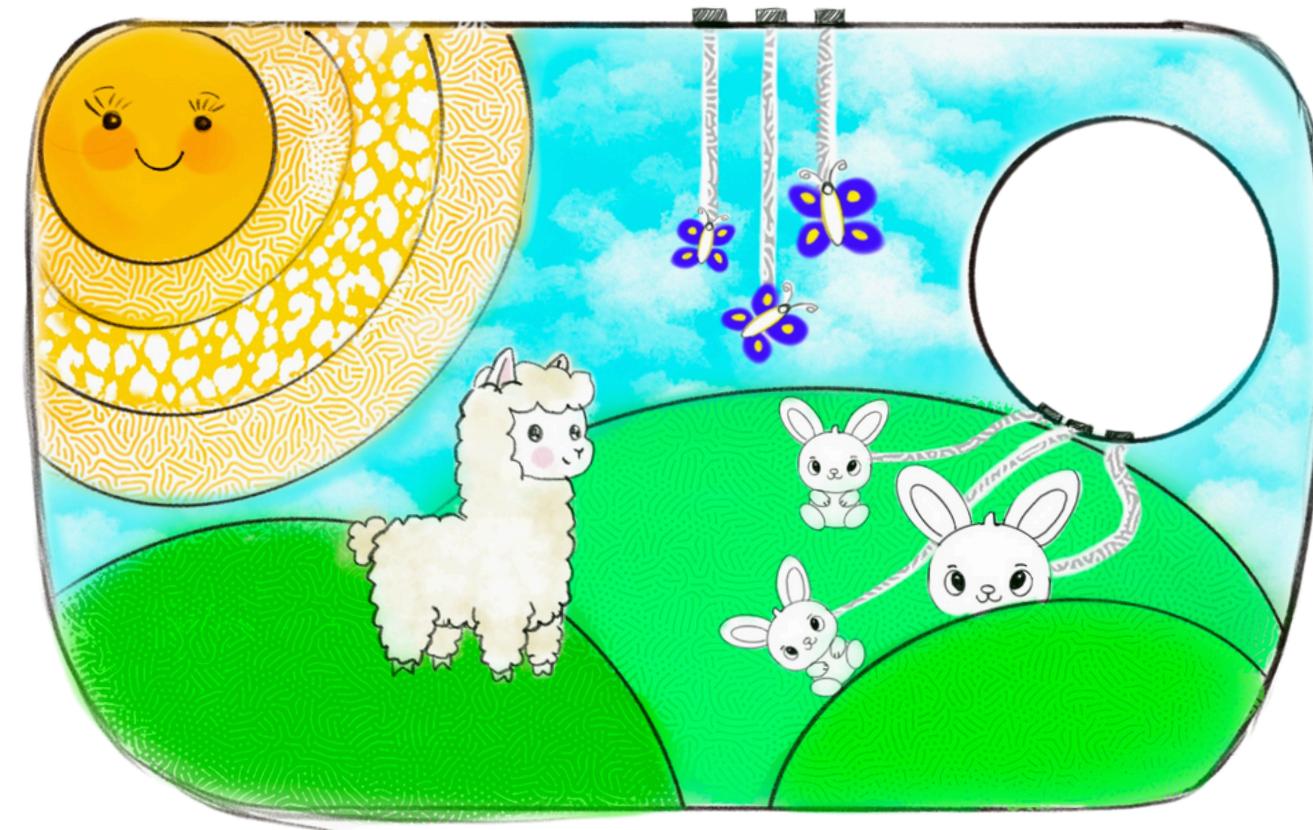

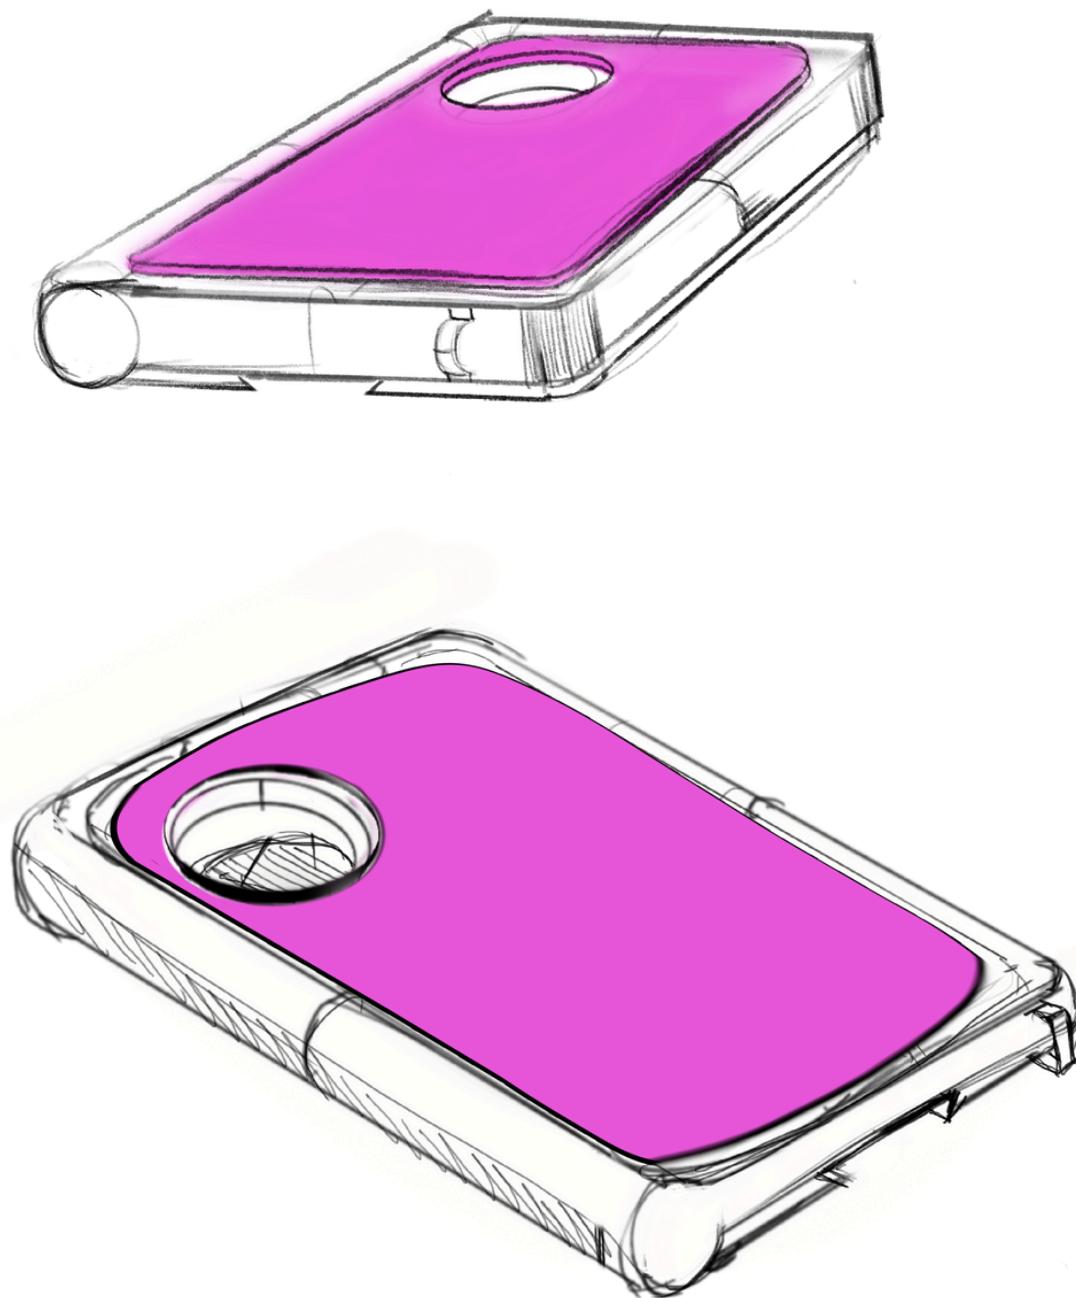

## Primary Tray – Storage & Sheet Access

The primary tray features a built-in compartment for storing additional activity sheets. By opening the tray, sheets can be easily accessed, swapped, and securely stored, ensuring an organized and convenient play experience.

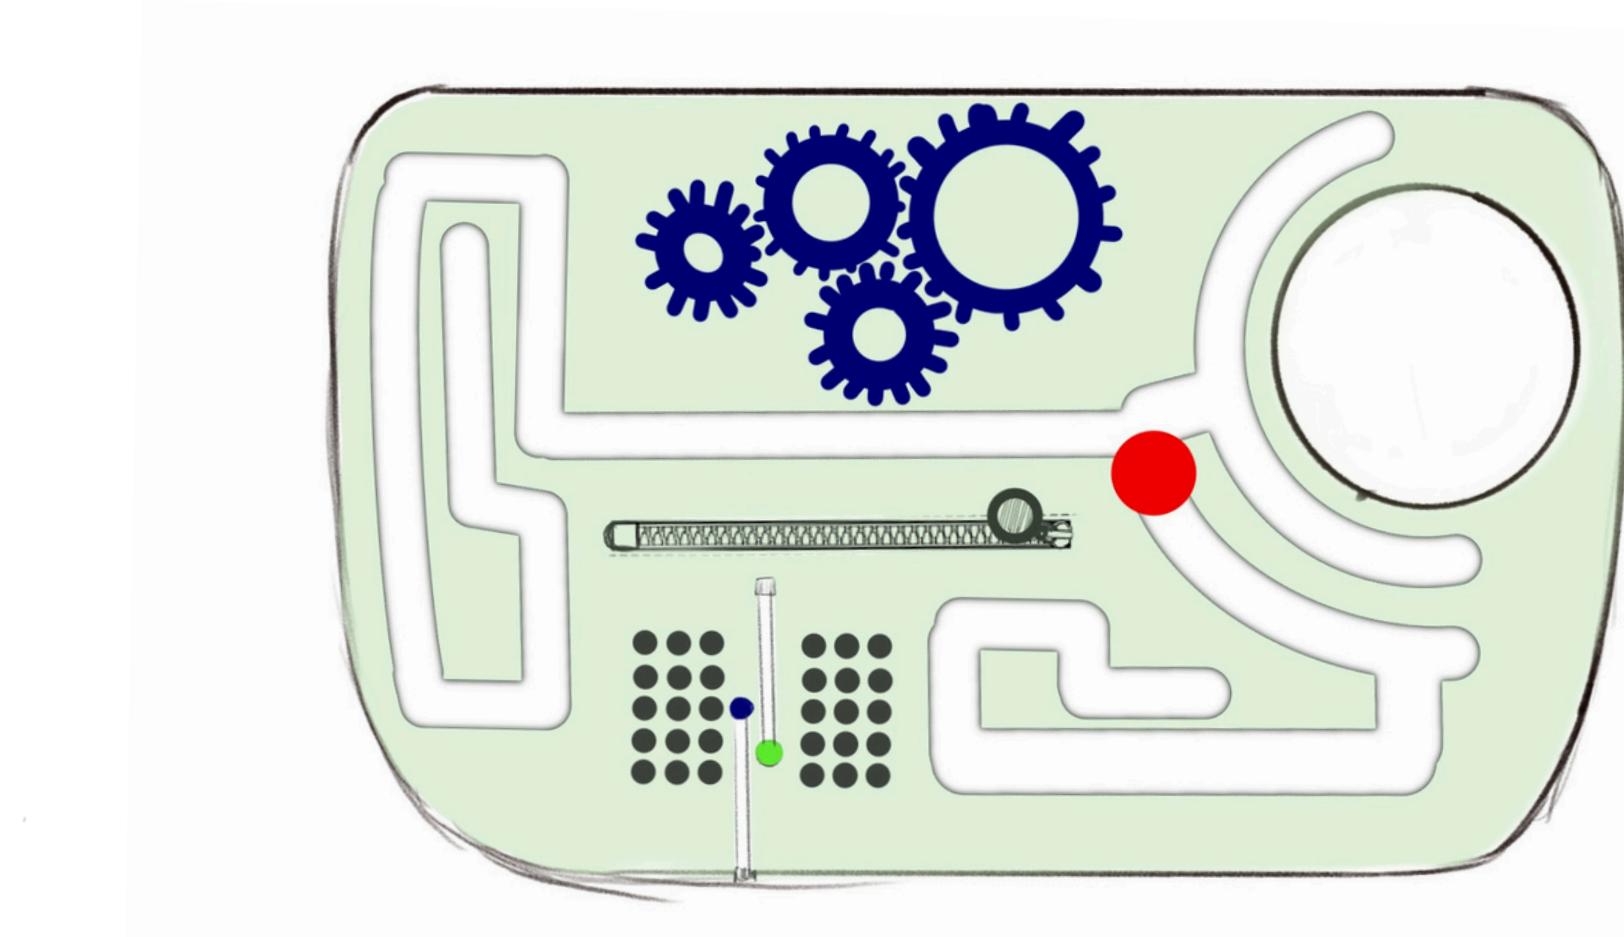

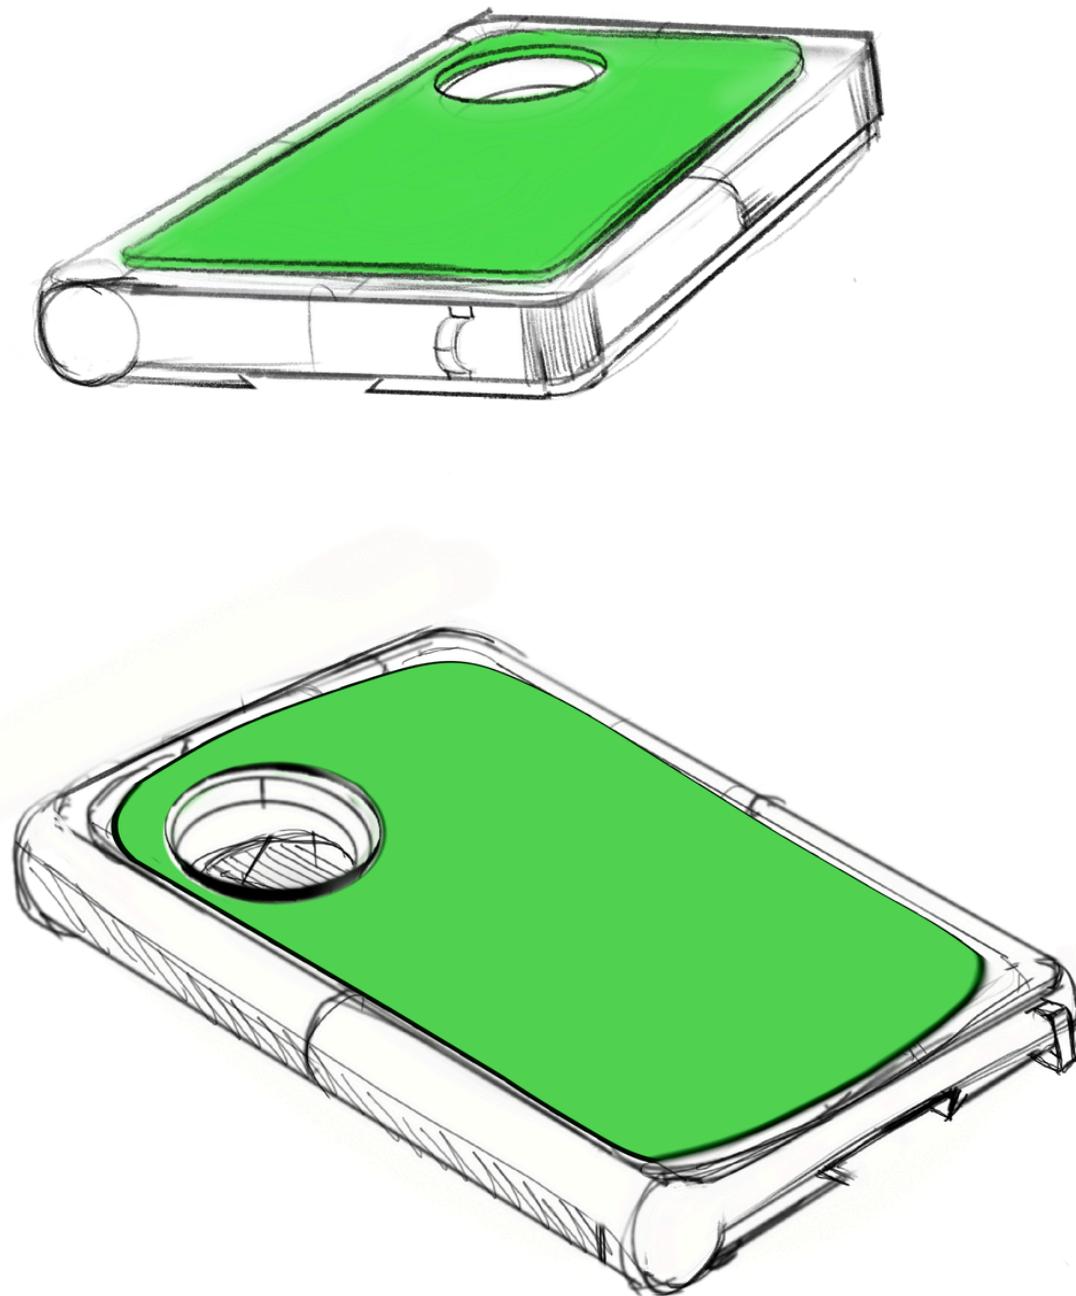

## Sheet No. 1 – Sensory Play Sheet (6+ Months)

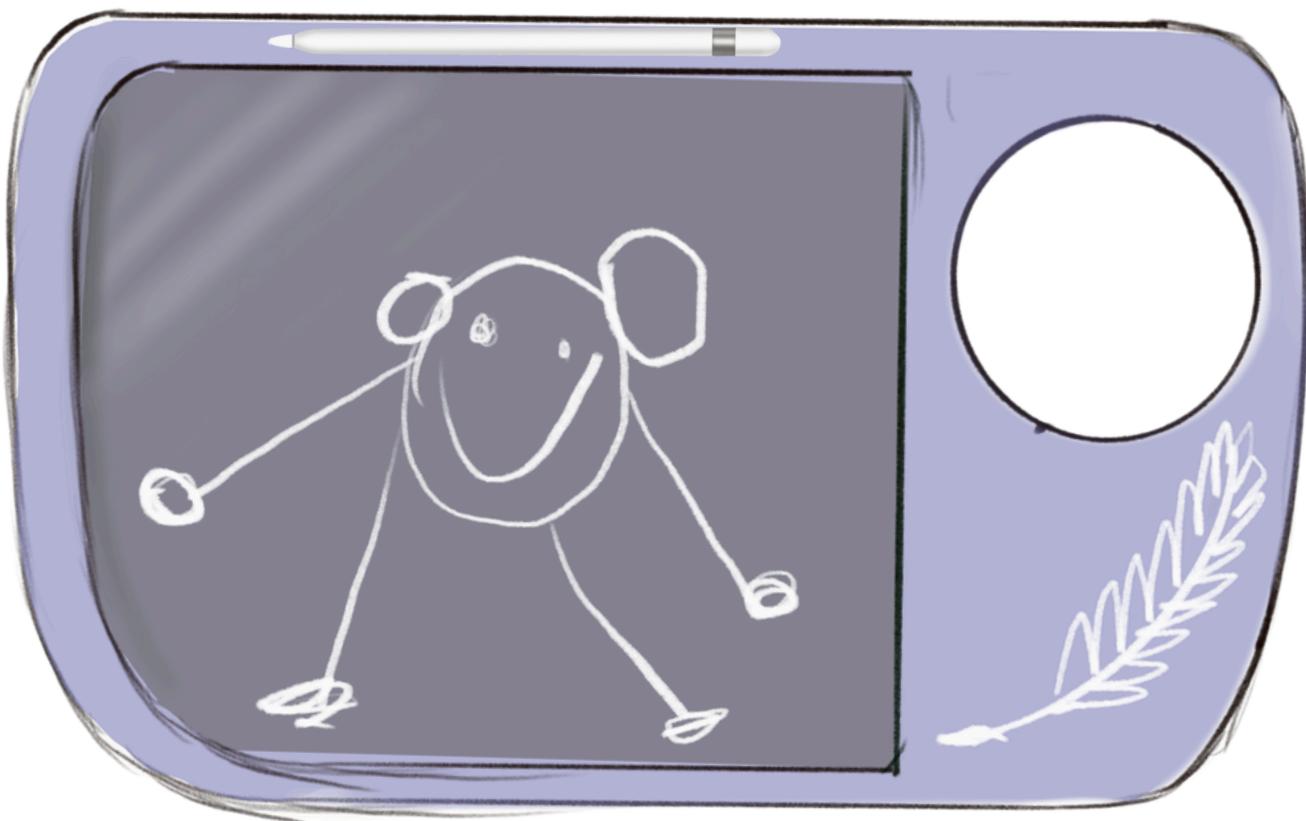

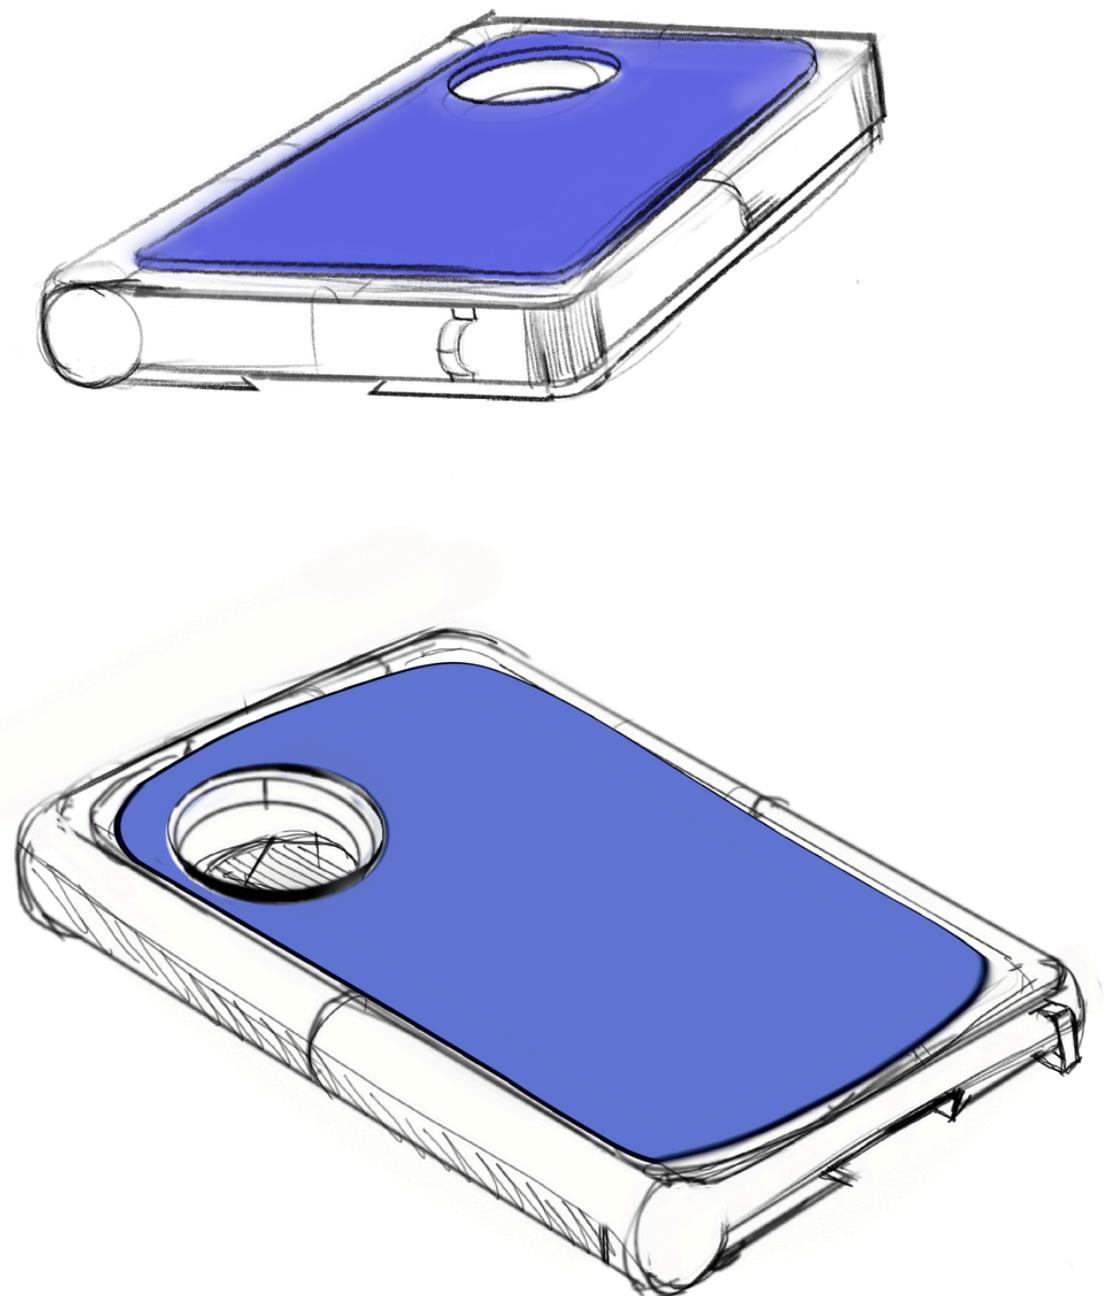

A soft-textured sensory sheet (4mm thick) designed for tactile exploration and fine motor development. Made from a plastic base covered with fabric, it features textured drawings and movable butterfly and rabbit elements on a band, encouraging finger movement, grip strength, and coordination.

## Sheet No. 2 – Interactive Motion Play Sheet (9+ Months)

A durable sensory play sheet (5mm thick) designed to enhance fine motor skills and coordination. Made from BPA-free soft plastic with a textile covering, it features smooth ABS gears, a sliding zipper, a moving silicone ball, and guided tracks, encouraging grasping, pushing, and pulling movements for early development.

## Sheet No. 3 – LCD Drawing Pad (12+ Months)

A baby-safe, reusable LCD drawing pad (5mm thick) for early creativity and fine motor development. Made from shatterproof, BPA-free LCD with a soft silicone frame, it features a pressure-sensitive screen for doodling with fingers or a stylus pen.

### **3. Car Seat Tray – Secure Attachment System**

The tray connects securely to the car seat using adjustable bands and Velcro fastenings, ensuring stability and safety during travel. The reinforced straps wrap around the car seat, keeping the tray firmly in place while allowing easy removal and adjustment.
